MARKETS

MARKETS The leading produce markets were generally duil Saturday, with not much change in prices, though the tendency of wheat was to a lower range. There was roully as much tails on "Change about the "Derby" as in regard to the prices of farm produce, local operators taking comparatively little instress in the latter in the assume of orders to trade for outside particle, the second order is to trade for outside particle, in good orders to trade for outside particle. Trownons were duil, with little change in prices, lard being firm is spite of some super lis-tive selling by the forest element. Week, which more than compensated for the fact of primer failes, though that fulctings as an active by the index thought with fulcting as an active by the fanges for the file for the store of year. Outset were duil and steady and timothy seed strouger.

BRICES ON 'CHANGE, The following table shows the range of prices on grain and provisions:
