

railroad to the Pacific--The St. Louis Convention

The National Convention of those favorable to the enterprise of connecting the commerce of the Atlantic with that of the Pacific, by a line of Railway across the Continent, which had been summoned to meet at St. Louis, to deliberate on the best route to be pursued, assembled at that place on the 16th ult. It was fully attended. Four hundred and sixty four delegates were present from Missouri, 13 from Pa., 3 from N. Y., 20 from Ohio, 13 from Tenn., 35 from Ind., 3 from Ky. 264 from Ill., 74 from Iowa, 3 from Wis. and 5 from Mich.

A. Douglass of Ill., was chosen President. A Committee of 3 from each State was appointed to report Resolutions to the Convention. Resolutions having been introduced calling on Congress to act promptly in relation to the Pacific Rail Road, Mr. Benton rose and read a letter just received from Col. Fremont, stating that the Convention should designate no route across the Rocky mountains--he believed the pass at the head of the Arkansas and Del Norte the most practicable and nearest to the Pacific.

Gen. Smith had sent an exploring party with a view to report before the termination of the next Congress. He dwelt long and eloquently on the importance and nationality of the road. Col. B. was repeatedly and loudly cheered. A committee of one from each State was appointed to draft a memorial to Congress, presenting the objects and design of the Convention.

Judge Birch presented a resolution recommending the fourth parallel as the route for the road, and was warmly replied to by Gov. King of Mo. The project being opposed to that of Benton, the political discords of the Democrats in Missouri were here manifested. Mr. Clark, of Missouri, interfered to quell the dispute; and was followed in a severe manner by Judge Williams. On motion of Mr. Lathrop, of La., the Resolution was laid on the table, and order temporarily restored.

Letters from distinguished persons in different parts of the Union were ordered printed, and the report of Topographical Engineers as to various routes, referred to a committee. On the 17th, the committee on resolutions reported a series setting forth the object and spirit of the Convention as truly National, and subserving neither party, sectional, or local interests--recommending to Congress to make immediate provision for constructing a great trunk road to the Pacific, with a branch to Oregon from some point on the Mississippi, at the frontier, as near as may be found eligible, and that all Eastern lines now tending towards the West, may be considered as parts of the same--that Congress establish military posts on the route for the protection of settlers and emigrants, and grants of land be made encouraging population--that Congress be memorialized to construct a telegraphic route, and that a committee of five be appointed by the Chair to prepare and publish an address to the people of the Union, to urge the incorporation and prompt action by Congress.

The Hon. J. W. Thompson, of Ind., addressed the Convention eloquently for two hours on the Resolutions, and offered the following amendment--That the grand trunk railroad be constructed with branches to St. Louis, Memphis, and Chicago, and that a committee of fifty be sent to the Memphis Convention requesting the cooperation of that body. The resolution as amended passed unanimously.

The Memphis Convention. The Memphis Railroad Convention met on the 24th, and was quite numerous attended. The subject of a Road across the Continent and another across the Isthmus engaged the attention of the convention, and gave rise to considerable debate. The result of the deliberations of the convention has not yet reached us.

Ohio State Journal. In this paper of the 1st inst., Judge Thrall announces his retirement from the Editorial department together with Mr. Reed. The Journal will be edited by William T. Bascom, who has purchased half of the printing and binding establishment of the former proprietors, which will be carried on under the firm name of Scott & Bascom. Mr. Thrall introduces the Editor as "a gentleman of education and some experience as a writer and political tactician," and presents himself in a handsome salutatory to the public. Mr. Charles Scott is the former Publisher. Our best regards attend the retiring editors, and we tender to Mr. Bascom our cordial wishes, in the important duty he has assumed, and which we have confidence he will discharge with honor to himself and profit to the Whig cause.

Editorial. Our esteemed friend, E. A. West, has retired from the charge of this paper, which he has conducted for the past two years with ability. He has our warm thanks and best wishes wherever he may go. Our old acquaintance and friend, Jerome Cotton, Esq., has ascended the tripod of the Courier. We were sorry to hear that last Fall, he mistook Kinderhook for Freehold; but we hardly think he will make the same mistake this year, with Townsend and Locofocoism. He is a good writer, and has heretofore been a prime Whig. We hope he will hold on to his Whig printing and give all his gun-Cotton to the Locos.

Our esteemed friend, E. A. West, has retired from the charge of this paper, which he has conducted for the past two years with ability. He has our warm thanks and best wishes wherever he may go. Our old acquaintance and friend, Jerome Cotton, Esq., has ascended the tripod of the Courier. We were sorry to hear that last Fall, he mistook Kinderhook for Freehold; but we hardly think he will make the same mistake this year, with Townsend and Locofocoism. He is a good writer, and has heretofore been a prime Whig. We hope he will hold on to his Whig printing and give all his gun-Cotton to the Locos.

Russia and Turkey. The result of the correspondence between the Russian and Turkish governments, respecting the Hungarian fugitives, has again revived public interest in European affairs, which after the fall of Hungary, had sunk into gloomy indifference. The next steamer will probably bring us the decision of the Czar, as to the alternatives presented by the rejection of his demands on the Sultan, upon which decision the fate of the peace and interests of Europe depend. The intelligence from Turkey by the Europa says that "the attitude of the Porte is calm, and the spirit of the people excellent; there is not the slightest symptom of uneasiness in the public mind. Every one, on the contrary, congratulates the Sultan and his ministers on having shown firmness and resolution on a question of humanity, and which so highly interests the dignity and honor of the country. It is positively stated that the Polish refugees are about to be sent to Choumnia; the Hungarians remain at Widdin. As to the Italian refugees, to the number of 400 to 450, no one claims them, and the Porte is devising means to make them quit the territory."

The London Times says: The view taken by the leading organs of public opinion in France and Germany as to the probable termination of the question between Russia and the Porte is certainly more favorable to peace than that which has been entertained and expressed in this country. By the last accounts from Constantinople, it seems that after Prince Radzivil's departure, M. Tietoff had endeavored to soften the effect of his commission, and even to desist from the imperious tone of his demand. Another Russian emissary, M. de Kankrin, has since been dispatched to the Porte. Faud Effendi is on his way north, with explanations. The Austrian and Russian Ambassadors have certainly not demanded their passports or taken their departure, although they suspended their diplomatic intercourse with the Turkish Ministers until they received further instructions.

Illinois S. Senator. In the Legislature of Illinois, on the 27th ult. Gen. Thomas Shields was elected to the U. S. Senate by a vote of 72 for Shields, against 21 for the Whig candidate, Cyrus Edwards. Shields was chosen in the Locofoco caucus, over McClernand and Breese, after 21 ballottings. The defeat of McClernand is gratifying to the Whigs, as he was the regular Cass candidate. The Chicago Democrat says of him: McClernand was the candidate of the extra-sessions, the slavery extensionists and the anti-Harbor and River Improvement men. He had the State Register and nearly four-fifths of the Democratic papers of the State under his control. Shields was elected to the Senate a year ago, it will be recollected, but was deprived of his seat on the ground that his naturalization was not complete. He is now constitutionally qualified. We believe that he will pursue a just and liberal course with respect to the Administration, and will be found voting with the Whigs for Internal Improvements and the Anti-Slavery Ordinance. The Bulvidere (Ill.) Republican says that in his speech at that place a short time since, he declared that if elected to the United States Senate, he would obey the instructions of the legislature on the Wilnot Proviso both because they were instructions and because they accorded with his own sentiments.

Locofoco Bank Explosions. Beware of foreign trash! The Locofoco Bank of Susquehanna has exploded for the second time, with villainy premeditated. Previous to its catastrophe, it sent abroad large quantities of its paper to the most gullible points, and we are sorry to say that this section seems to have been viewed with special favor. At Cincinnati, the paper was also extensively circulated. Cleveland and other points in the State have been less freely visited. We cannot see how it is possible for our business men to be duped into receiving and communicating so large a quantity of bills, simultaneously issued from a single foreign Bank, without leaving their suspicions awakened. We do not believe it possible or excusable. It is right that the public should summon such men to the bar of censure. A vast amount of bills from the Farm's & Mechanics' Bank of Michigan has suddenly appeared amongst us. Is another Locofoco Bank preparing to burst? Let our farmers demand home Whig currency, and spurn this foreign Locofoco trash when it is offered them. The State Bank at Morris, N. J. has also exploded. It is said. The Cleveland Herald reports that the paper of the Mineral Bank of Maryland, and the Bank of Salisbury, Md., is not received by the City Banks there. The Morris paper, it says, has been paid out freely of late, in that quarter, but nobody knows by whom. The Mineral bank paper has also been paid to farmers for wheat in some sections.

Why should we go abroad for this rascally currency, when we have enough of honest red-backs at home? If we would escape foreign money sharks, we must keep in our own waters. Judge Wood--Locofoco State Convention. The Sandusky Co. Democrat has nominated for Governor Hon. Reuben Wood, of Cleveland, subject to the choice of the next Locofoco State Convention, which the Central Committee have called to meet at Columbus on the 8th of January next.

TRIAL FOR ANSON. Newton Holt was tried at Cleveland at a late term of the court of common pleas of Cuyahoga county, for setting fire to St. Paul's church at Cleveland, on the 2d day of August last, and sentenced to six years imprisonment in the penitentiary. We think the prisoner started on the Eureka for California, but was pursued, brought back, tried and convicted.

Important Change. On Monday last the Court of Common Pleas of Sandusky county changed the name of this town, from Lower Sandusky to FREMONT. Our brethren of the press everywhere, will confer a public benefit by spreading the news.

Progress of American Manufacturers. The N. Y. Dry Goods Reporter says: Further importation of Musceline de Laines for American consumption must prove a losing business. The importations of the kind are urged in favor of the change, and the interminable length to which trials are at times extended, and the difficulty of twelve men coming to a correct conclusion concerning a case, without a sacrifice on some side, of either conscience or judgment.

The New Orleans Courier says that "the world is wide enough for two men either to live peacefully in or to fight in. It is certainly wide enough for them to fight in. Let them take their positions, the one at the North pole and the other at the South, and they will be able to elbow-room for a beautiful fight with either pistols or small swords."

The amount of gold in the Treasury of the U. S. has increased since the 1st of January, 1849, to \$1,000,000. The demand was greater than the supply.

Milwan Fire. The Tribune states, that the Warehouse occupied by H. Chase & Co., which was consumed in the fire at that place on the 25th inst., had an insurance of \$1500 on it, somewhat less than its value. They had an insurance of \$30,000 on their portion of its contents, which, it is supposed, will cover their loss. The entire loss, including building and contents, will reach about \$10,000. The other Warehouse burned was valued at \$8,000, and insured in \$3,000. The loss of contents is estimated at \$5,000; 4,000 of which falls on Stevens & Ryan. There being no insurance on the contents, this is a severe blow upon an energetic business firm.

The aggregate loss is estimated at \$23,500, on which are insurances of \$7,500. There is but one opinion as to the origin of the fire--that it was the work of an incendiary. The object is generally supposed to have been plunder; but we think the villains were greatly disappointed, if such was their object.

NEW YORK TRIBUNE. This sterling Whig journal, which beside the National Intelligence, unquestionably stands at this time at the head of the political press of the country, has issued its prospectus for the coming year, from which we quote the following: "Its conductors aim, and believe they are enabled, to furnish a large amount and variety of information in a neat, interesting, and daily, Semi-weekly or Weekly issue. It can be obtained at a cheap rate in any other form. They endeavor to make their Daily at \$5 equal in everything but advertisements to any \$10 Daily in the world; so their Semi-weekly at \$3, and their Weekly at \$2 which is afforded to their subscribers at a discount, having no other than advance subscribers, sending papers except for cash actually paid, and favored with a subscription almost if not quite without parallel, they are enabled to incur expenses for Literary Assistance, Correspondence, Telegraphing, &c. which any other newspaper could not bear. Having no other than advance subscribers, sending papers except for cash actually paid, and favored with a subscription almost if not quite without parallel, they are enabled to incur expenses for Literary Assistance, Correspondence, Telegraphing, &c. which any other newspaper could not bear. Having no other than advance subscribers, sending papers except for cash actually paid, and favored with a subscription almost if not quite without parallel, they are enabled to incur expenses for Literary Assistance, Correspondence, Telegraphing, &c. which any other newspaper could not bear."

Now, therefore, in pursuance of this resolution, I, SEABURY FORD, Governor of the State of Ohio, do set apart Thursday, the 29th day of November next, as a day of Thanksgiving to Almighty God, throughout the State of Ohio. The divine goodness, our dependence, previous and increasing usage, and its own useful adaptations, recommend the observance of such a day. Then let grateful acknowledgments go up to Heaven for every heart, from domestic altars, and from all our places of public worship. Let God be praised for the blessings of His providence and of his grace; for civil, social and religious privileges conferred through another year.

With thanksgiving, let us associate confession of unworthiness, and deplore the prevalence of vice and irreligion. Let us supplicate forgiveness and needed grace, that the goodness of God may lead us to repentance; that from his judgments we may learn righteousness, and that we may be exalted and prospered by Him. Let us implore His choicest gifts upon the other States of our Union,--pray that He will extend to our citizens, and to the inhabitants of the world, the blessings of freedom, intelligence, virtue and religion, and impart to all "The liberty wherewith Christ hath made us free."

IN TESTIMONY WHEREOF, I have hereunto set my name, and caused the Great Seal of the State of Ohio to be affixed, at Columbus, the 27th day of October, in the year of our Lord one thousand eight hundred and forty-nine, and in the seventy-fourth year of the Independence of the United States of America. SEABURY FORD, By the Governor, SAMUEL GALLOWAY, Secy of State.

Influx of Canadian Wheat. The wheat crop of Canada is very fine this season, and our Western farmers have the crop of Canada to compete with under the reduction of duty on foreign wheat by the tariff of 1846. Large purchases and importations are making for the New York market, and it is stated that Canadian wheat can be delivered in N. York after paying the duty of 20 cent, some 6 or 8 cents cheaper than from the Upper Lake and other points of origin.

Fatal Mistake. Mrs. Barker, wife of Zenas W. Barker, Esq., an old and esteemed citizen of Sandusky, was poisoned Saturday evening, and died in a short time, aged 51. Mrs. B. had been ill for some time, and was in the habit of taking morphine. She sent her son to a drug store in the evening for some, and the druggist, by mistake, gave him a bottle of strychnine. Though it was thus labelled, it was overlooked by the druggist, her son, and the lady. Mrs. B. took what she supposed to be the usual dose of morphine, and feeling worse, soon took another. In half an hour she was dead!--Sanbushian.

Abandoned. Israel Garrard, Esq., whose name was recently connected with a proposed newspaper enterprise at Columbus,--a State organ of the Free Democratic party--has authorized the Springfield Republic to announce that he has abandoned the enterprise. He has seen that the distinctive existence of the Free Democratic organization, even for an inconsiderable period, is becoming more problematical, and that a few intriguing leaders are bent on selling out to Locofocoism, and having too much regard for principle to play such a game, he has wisely concluded to abandon the whole concern.--Sanmut Beacon.

Progress in Oregon. A correspondent of the National Intelligence, writing from the town of Portland, on the Willamette river, under date of the 10th of May last, gives the following note of the progress of the cause in that State: "The next stopping place which I made was that of the Rev. Mr. Griffin, about three miles distant. He resided in the edge of a forest of oak and pine, with a fine prairie country in front. In introducing myself, I was asked immediately, in a friendly office, where I found the Rev. Mr. Griffin actually, the Rev. Mr. Griffin, the volume one, No. eight of the 'Oregon American and Evangelical Unionist.'"

The Boston Journal remarks, that the emigration to California has had considerable effect on the money market in that city. Many adventurers have fled to seek in that market a more certain success, and have required much specie in their outfit. It probably will be returned in gold, but not in some time. Millions of dollars have in this way, been taken from the country, and yet not three millions returned. Of 161 vessels that have sailed for California from this country, but 95 had arrived at last accounts, leaving 66 on their way, all filled with emigrants and freight. It does not seem of much profit to send merchandise at present, to San Francisco.

Canadian Matters. The Montreal Annexation movement does not seem to meet with a very hearty response out of that city, or else the people are shy about speaking out. But a single journal, we believe, in the Upper Province openly takes ground in favor of Annexation. The removal of the seat of Government to Toronto has been decided on, and the several Departments have been ordered to make preparation for immediate removal. Telegraph Case. The trial between Morse and O'Reilly has at length closed, and a decision has been rendered in favor of Mr. Morse, his patents have been fully sustained, the first for 14 years from the date of his French patent in 1838, and the second for 14 years from 1846.

The Columbian instrument is likewise declared to be an infringement on Mr. Morse's patent, and an injunction granted against its use during the full term of the above named patent. Mr. O'Reilly has appealed from this decision. Notorious Counterfeiter Arrested. Dr. Wagon, chief of the gang of counterfeiters, and bogus coiners has been arrested at Spencer, Ohio, and confined in jail, where he is awaiting trial, his guilt, by pretending to desire to go into the business. Over \$50,000 in counterfeit money and spurious coins were obtained from his dwelling, and in the woods adjoining were found plates, dies, and implements for striking bills, and making counterfeit money. Dr. Wagon kept an extensive establishment for years.

Sentence of a Murderer. Jesse Ransbottom was tried in Green county, Ohio, for the murder of his wife, by cutting her throat with a razor. The Jury, after an absence of 40 minutes brought in a verdict of murder in the first degree, and he was sentenced to be executed on the 25th day of January next.

MARRIED. At St. Paul's Church, on the 1st instant, by the Rev. E. Winthrop, E. M. BARNUM, Esq., to Mrs. M. M. BARNUM, daughter of Pickett Lattin, Esq., all of this village. With the above notice was received some excellent cards, from the table of our wedded friends, for which they will please accept our best acknowledgments. May they have the happiness which we know they both merit. We wish them a long life together, and the enjoyment of "warth's" perpetual suits. "May never sunbeam fill more bright, Than thine own on our path-way light, And downy rest gather to our bed, Than downy rest to thine and mine." Dr. J. P. MARRIED. At St. Paul's Church, on the 1st instant, by the Rev. E. Winthrop, E. M. BARNUM, Esq., to Mrs. M. M. BARNUM, daughter of Pickett Lattin, Esq., all of this village. With the above notice was received some excellent cards, from the table of our wedded friends, for which they will please accept our best acknowledgments.
